ABOUT ME

I have a strong passion for cocktails and service so have really enjoyed working part-time as a bartender/barista. I am always boosting team morale and making sure everything is organised for a good shift. This year I took a risk and became part of the founding cohort of the UK's first interdisciplinary university, LIS. As it is brand new, I am forming several societies such as the LGBTQ+ society, skating and am helping on designing the common space keeping the focus on being sustainable. I have always worked and studied side by side, so I believe my greatest strengths are being organized, motivated and being a quick learner.

EXPERIENCE

06.2021 – 11.2021

BARTENDER, THE CULPEPPER

- Every shift, I tend to customers preparing on-menu as well as off-menu cocktails and drinks for them to a high standard, making sure to take their orders and payments. Furthermore, my role includes preparing organic syrups, juices and batches from scratch and making sure we have enough on shift. Performed closing duties including sanitizing, cleaning, and replenishing.
- During morning shifts, I would regularly serve all kinds of coffee to customers, adhering to allergy aware practices. I would also open and close up the coffee machine.
- I strive to familiarize myself with the latest trends in mixology, always proposing new ideas to my bar managers, for example, I am currently in the process of making a Christmas seasonal cocktail.
- I was frustrated with the organization on the rooftop so lead a stock initiative which is still being carried out today. When I work on the rooftop bar, I am a barback as well as a bartender, so I am well experienced in barback duties.

05.2019 – 07.2021

YOUTH WORKER, UNITAS YOUTH ZONE

- Every week I planned, lead, and delivered sessions for groups of young people of mixed abilities ages 8-19. I deliver sessions in sport, art, music, or cooking.
- I continuously adapted my sessions on the spot depending on how many young people attended and their needs, SEND or otherwise.
- Communicate any safe-guarding concerns and a possible action plan to my manager. For example, if the child hasn't eaten all day, I would make sure they are provided with a free meal.

04.2020 – 05.2020

KEY WORKER ASPARAGUS PICKER, COBREY FARMS

- I picked asparagus during lockdown.
- Worked 8-12-hour shifts in all weather.

01-26.07.2019

SHADOWED A STATISTICIAN, JANA KUBASCIKOVA

- Throughout the month, I looked at large data sets of taxpayer figures and produced graphs to represent the data. These graphs included bar charts, histograms and scatter plots. Some of which were then used when helping to prepare PowerPoint presentations with the statistician.
- I arranged and went to meetings for various topics, such as where the statistician advised policymakers and analysts on the impact new tax policies may have on stakeholders. I also helped finish reports, which included recommendations and improvements for some of the various topics.

01.2015-04.2019

VOLUNTEERING YOUTH AMBASSADOR, ONSIDE YOUTH ZONES

- I volunteered with OnSide, helping to create, advertise and present four youth Centre projects across London, one being in my local community.
- To kickstart the projects, I worked with a team to create a brand for the projects, through design meetings with ZAK agency. As well as attending/presenting at various meetings with local authorities and businesses to discuss their involvement and concerns of the projects.
- I presented to high-profile individuals at the house of lords from this we managed to gain significant funds for the youth center.
- To further advertise, I went out to the local community various times, handing out leaflets and talking to parents and young people. In my last few months of volunteering, I interviewed potential candidates, from Head of youth work to cleaners, to work at one of the youth centers before opening.

EDUCATION

SEPTEMBER 2021- ONGOING

**INTERDISCIPLINARY PROBLEMS & METHODS BaSc, THE LONDON
INTERDISCIPLINARY SCHOOL**

SEPT 2019- AUGUST 2020

THEORETICAL PHYSICS BSc, KINGS COLLEGE LONDON

Completed one year, gained a first and then switched university.

AUGUST 2019

A-LEVELS, ST JAMES' CATHOLIC HIGH SCHOOL

Mathematics - A

Economics - A

Physics - B

SKILLS

- Slovak – Fluent
- French – Beginner
- Python – Intermediate
